

Individuals with Disabilities in Washington

X4IMPACT

X4Impact Service Desert Map™

X4Impact Service Desert Maps™ are potent visualizations of the opportunity gaps between populations in need of services and the number of nonprofits servicing specific locations or the flow of social funding towards those populations.

The Service Desert Map™ for Individuals with Disabilities in WA showcases the gaps, per county, between households with individuals that have one or more disabilities and the availability of local nonprofit organizations that focus on serving the needs of these individuals and families. There is a funding gap of \$126M to address these deserts in WA.

950K+

Over 950,000 people (13% of the population) are living with a disability in Washington*.

*Estimates of the civilian noninstitutionalized population - US Census 2020
